

# Vaněk Arabia

## Competence in **Technology** and **Integration**

### About the Company

**As a lead integrator, Vaněk Arabia is your contractual partner for all your intralogistics challenges.**

The company specializes in providing subsystems such as vertical storage lifts, racks, robots, conveyor belts and different type of cranes, and a variety of warehouse technology into integrated solutions.

Our experienced project management team is adept at managing system interface coordination and possesses years of expertise in integrating new systems into clients' pre-existing infrastructures. Vanek Arabia will remain your primary contact, ensuring support long after the solution implementation.

We offer **project management, technical support, and service** with strong backing from our European manufacturing facilities.

### Technological Advantages

We are equipped with cutting-edge CNC machines, high-performance lasers, and advanced bending centers. In 2008, we were the first company in Central Europe to implement **laser welding**, which remains among the top-tier technologies in the field.

### Workshop Production and Assembly

In addition to CNC production, we have a strong background in manual processing and assembly. Our experienced welders and grinders work with TIG-WIG and MIG-MAG technologies, precisely refining welds and product surfaces. In recent years, we have specialized in **complete assembly of industrial machinery**, including component supply, logistics, and final product delivery.

### Innovation and Development

Our **design department** is the driving force behind our innovations. Our engineers continuously optimize material and manufacturing processes to maximize efficiency in every project. We offer **custom development and redesign** to enhance the functionality and quality of products.

## Global References

King Abdulaziz International Airport, Jeddah

With 35 years of experience, we have become a trusted partner for global industrial leaders in various sectors. Our key partners include:

## Vaněk Arabia: Partner for the Middle East

In 2024, we established **Vaněk Arabia**, a subsidiary dedicated to supporting clients in the Middle East. In the planning and design stages of a project, Vaněk Arabia diligently chooses the most suitable components from our extensive product lineup as well as from other market offerings, frequently collaborating with trusted partners to devise solutions from the outset.

### Successful Projects in the Region:

- Processing of ceilings and cladding for Jeddah Airport
- Supply of components for industrial systems in the UAE
- Production of specialized solutions for the energy sector

With strategic expansion and continuous technological advancement, we are ready to be your **strong partner in the Middle East and globally.**
